

TYPO3Camp Poland 2014 is a conference about modern content management systems and advanced web portals. Organized under the auspices of the TYPO3 Association for businesses, professionals, people from the IT industry and for all interested in CMS capabilities. The conference program provides case studies, lectures and workshops conducted by practitioners. TYPO3Camp will be a unique opportunity to establish business contacts with those involved as well as experts associated with the CMS TYPO3. TYPO3Camp PL 2014 taking place on 21st and 22nd of November in Poznan is the first Polish event of this sort. TYPO3Camp happens periodically in the biggest European, Asian and Australian cities and is always addressed to the local community developing TYPO3. These meetings offer a perfect opportunity for learning new technologies and establishing strong relations with other users and practitioners. Our two special guests, **Robert Lemke, the project founder and the lead developer of TYPO3 Flow and TYPO3 Neos and **Ben van't Ende**, the community manager of TYPO3 projects, have already confirmed their participation in the meeting.**

TYPO3 is a CMS willingly chosen by small companies, corporations, non-profit organisations and government agencies. This is an Open Source project, which means the clients are not charged for the license and are independent from just one producer.

Many internationally renowned companies and organisations are amongst TYPO3 users: **New York Times, Lufthansa AG, NASA, Logitech, DHL, 3M, SMART AUTOMOBILE USA INC., Philips** as well as **KFC Corporation** and **UNSECO**. TYPO3 is also trusted by government organisations - since 2011 the government of Federal Republic of Germany has supported TYPO3 Association's projects to improve accessibility and utility of TYPO3 websites for disabled users.

We would like to invite you to join us at the conference as our partner and sponsor. This event will assemble a large group of professionals, becoming a great opportunity for publicity of your company.

Join Us now!
